PLANNING EXPERT SYSTEM

*"...the Planning Portal and Planning Advisory Service should work closely together to support and encourage local planning authorities to develop a **high quality internet based information system** which allows members of the public to establish accurately and quickly whether or not planning permission is required for small scale householder and commercial development"*
(Killian Pretty Review - November 2008)

Available from £250 per month

FEATURES

- Provide public with expert online planning advice
- Free up valuable planning officer time
- Full script editing tool available
- Answers the question 'Do I need planning permission?'
- All Planning Advisory Service scripts included and maintained as standard

MAIN BENEFITS

- Lightens the admin burden by making planning information directly available to general public
- Provides consistent advice processes
- Gathering and storing enquiries electronically
- Local authority staff can access information supplied during an enquiry

Live demonstration available on request
